Hospice Medication Management Toolbox: Compliance, Care, and Cost Control Virtual Webinar • Friday, February 13, 2026 • 1:00 – 6:00PM ET	
Time and Educational Content	Table of Contents • Content Overview / Objectives
1:00 – 1:45 PM ET 1. <i>Regulatory Framework of Relatedness Determinations and Drafting the Election Statement Addendum</i> Presenter: Carrie Cooley, RN, MSN	Discussion of the regulatory requirements that govern hospice medication management including relatedness determinations and drafting the <i>Patient Notification of Hospice Non-Covered Items, Services, and Drugs</i> (the “Election Statement Addendum”). Also, an explanation and documentary examples of payment-related and other scrutiny that results from non-compliance.
1:45 – 3:30 PM ET 2. <i>Medication Relatedness and Coverage Determination: Execution, Communication, and Documentation</i> Presenters: Lauren Templeton, DO FAAHPM HMDC and Ellen Fulp, PharmD, MSPC, BCGP, FAAHPM	A deep dive into the hospice physician’s responsibilities for medication relatedness and coverage determinations, deprescribing, patient/family and interdisciplinary (IDG) communication, and drafting compliant documentation. Also, a discussion of the positive patient care and financial impact of utilizing sensible deprescribing processes and a cost-effective medication formulary.
3:30 – 3:45 PM ET	15-minute break
3:45 – 5:00 PM ET 3. <i>Collaborating with Pharmacy Partner(s)</i> Presenter: Ellen Fulp, PharmD, MSPC, BCGP, FAAHPM	A comprehensive discussion of strategies to improve patient care and maximize cost savings by partnering with your local pharmacies and/or a pharmacy benefits manager (PBM). This course includes recommendations to strengthen communication and collaboration between the Hospice and PBM, including formulary governance, annual evaluation of the hospice’s formulary, and strategies to evaluate the efficacy and cost-effectiveness of in-home emergency medications (“comfort kits”).
5:00 – 6:00 PM ET 4. <i>Patient-Specific Medication Management: Using Patient/Family Goals to Guide Care</i> Presenter: Lauren Templeton, DO FAAHPM HMDC Ellen Fulp, PharmD, MSPC, BCGP, FAAHPM	An in-depth discussion of the regulatory, ethical, and clinical considerations that affect medication prescribing and deprescribing in terminally ill patients. This course also includes practical guidance on soliciting patient/family goals related to medication management and incorporating this information into the patient’s Plan of Care and other clinical record documentation.
